

Enjoy life— without allergies & asthma

*A simple solution: just a
few drops under the tongue.*

No more relying on pills, inhalers or nasal sprays. No time-consuming trips to the doctor for painful injections. Now you can find **fast, lasting relief** with under-the-tongue allergy drops. Take them on the go or in the comfort of home.

Unlike medications (which only provide temporary relief), oral drops can retrain your immune system to stop overreacting to dusts, molds, pollens and pet dander once and for all. Oral drops contain all-natural antigens and are safe — even for children.

Do You Have Allergies?

ONE IN FOUR AMERICANS SUFFERS FROM ALLERGIES. HERE ARE SOME COMMON SYMPTOMS:

- Sneezing*
- Watery or itchy eyes*
- Runny or stuffed-up nose*
- Chronic sinus and ear infections*
- Asthma or chronic cough*
- Recurrent colds or bronchitis*
- Eczema and hives*
- Muscle and joint pain*
- Headaches*
- Fatigue*

“The program has changed my son’s whole life. This is all-natural. It works. We can do it at home. It’s just too easy.”

- Mother of pediatric **AllergyEasy**® patient

Breathe deeply...

*Ask your doctor about oral drops today,
and imagine life’s possibilities!*
